

Add On Taxes

Options for add on taxes 1-5 are shown on the screen at the right.

1. Press the ↑ ↓ ← → keys to select the field you wish to edit. Type new information and press **ENTER**.
2. Press **ESC** to return to the TAX PROGRAMMING MENU.

```
TAX#1 BY ADD ON
RATE                00.000
THRESHOLD           00.00
HIGH HOLD           0000000.00
```

NOTE: Options for add on tax 6 are shown on the screen at the right. Tax 6 should be used for the Canadian Goods and Services tax (GST). Here you have the option of taxing the GST by other applicable rates (tax on tax).

```
TAX#6 BY ADD ON
RATE                00.000
THRESHOLD           00.00
HIGH HOLD           0000000.00
                    1 2 3 4 5
GST (TAX6) IS TAXABLE : N N N N N
```

Add On Taxes Program Notes

FIELD	Notes
RATE	Enter the tax rate. If fractional, press the decimal and up to three digits.
THRESHOLD	Enter the lowest amount where tax is charged.
HIGH HOLD	Tax is no longer charged after the amount entered here.
GST(TAX6) IS TAXABLE	Indicate the tax number of any taxes that accrue on the GST tax amount (tax on tax).
