Display

The CL5500 is equipped with two high quality, easy to read LCD Displays. The operator side displays are used to show Tare Weight, Unit Weight, Unit Price and Total Price on the left. The display on the right is used to display PLU names, Scrolling Messages and Programming Menus.

Printer & Label Cartridge

Achieve print speeds up to 100 mm/sec with a print resolution of 202 dpi. The removable label cartridge's simple design allows operators a method of quickly and easily reloading labels.

Label Formats

The CL5500 supports various die cut or continuous label sizes up to 200mm in length with the 45 preset label formats stored in its memory. With CL -Works Pro software, you can add up to 20 more custom label formats.

Wireless Networking Available!
